

OILCORP

PRODUCT DATA SHEET

OC SPRAY LUBE

Product Description

OC SPRAY LUBE is a penetrating / lubricant spray that will adhere and provide lubrication, rust protection and water-proofing for periods of up to 12 months

Applications

- **OC SPRAY LUBE** will provide 5 weeks protection from corrosion on newly faced metal surfaces.
- **OC SPRAY LUBE** is ideal in marine applications and will water proof the ignition of marine engines for up to a year with liberal application. It is also excellent for rust proofing fishing equipment.
- **OC SPRAY LUBE** is especially useful for lubricating equipment which is left exposed to the extremes of the weather or in corrosive atmospheres
- **OC SPRAY LUBE** is excellent for cleaning weapons and has been trialled by the Australian army with extremely favourable results.
- **OC SPRAY LUBE** can water proof the ignition systems of motor vehicles for long periods of time, avoiding problems associated with wet electrics. In electric motors and generators
- **OC SPRAY LUBE** will prevent the formation of corrosion on connections.

Packaging

350g pressurised spray

Typical Physical Characteristics (not including spray propellant)

Property	Typical Value
Boiling Point	>180°C
Vapour Pressure at 20°C	<4.0 (mm.Hg)
Solubility	Insoluble
Density (Kg/L)	0.805 @ 15°Csd
Flash Point	37°C

NOTE: Values stated herein are typical and do not represent a specification.
